CONCORD, N. H., April 1. Senator Chandler's pager, the Evening Molithr, to-day publishes the following letter sent to Senator Lodge has evening by Senator Chandler:

To Senator Lodge, Washington:

The lodierous headregitt between the delegates elected and the last resolution of the series sclepted by to-fay's convention needs explanation from me. A short time ago a McKinley movement was organized in Manchester under the lead of Henry M. Patney, of the Mirror newspaper. The protext of the outbreak was my denunctation of the campaign method of Messrs. Osbora and Hanna which the Mirror represented as an assault upon Mr. McKinley porsonally.

The argument seemed to be that because Mr. Chandler had injudiciously told the truth about Osborae and Hanna therefore New Hampshire ought to abandum Mr. Reed and support Mr. McKinley that an assaused virtuous indignation was to change men's deliberately formed opinion settled upon circh persons for delegates known to be favorable to Reed. Yesterday Mr. Potnam came to Concord as the advance guard of the Manchester delegates. He had been designated by the State committee with two other gentlemen as an advicory committee on platform.

He called on me and asked for my views. I began by saying that I assumed that no resolution concerning Presidential candidates would be adopted as we had not done that even during the exciting days of Blaine's cauvasses. He said that if a resolution of instruction for Reed was proponed the Manchester delegates ought to go uninstructed and free and uncontrolled by resolutions.

This I did and gave them my assent. They were literally those adopted today by the convention literal needled today by the convention when the last revenition as adopted. This forenoon about 10 oleck just of ore starting for the convention of learn decidentally that the committee on resolutions the night before had decided to add to the platform which had been shown to me a convention the decided to add to the platform which had been shown to me is

form which had been shown to me a resolution declaring that Reed was noble and illustrious and that McKinley was pure and able and that New Hampshire could be happy with either and referred one or the other. I also learned that it had been arranged to keep the decision a secret from me to as late a moment as

were found dead when the fire was ex-tinguished.
They were all badly burned when taken out. The firemen did not know that any lives had been heat till after the fire was put out and a search of the rulns had been made. They the bodies of the ten persons were found all badly hurned. They were taken to the Morgae.

After the wedding the bridegropm and wife will go to Indianapolis. was for Reed two or three to one. *
So mongrel a resolution to-day might have been casily defeated if men had not cried peace when honest manly warfure was required. But the delegates are all for Reed and I do not think that Hanna can capture any one of them at any stage of the contest. WM. E. CHANDLER. Manitoba School Conference Did No Good.

WINNIPEG, Man., April I. The Manitoba school conference was practically concluded today. Nothing resulted from the conference as far as can be learned in semi-official circles. The Dominion delegates wired Sir Charles Tupper last plight that they were too far apart from Manitoba on the questions to hope for a satisfactory settlement. The Manitoba ministers refused to negotiate for a settlement of the entire question while n measure for their coarcion is under consideration at Ottawa. It is understood that they asked Sir Donald Smith to prevail on the Ottawa authorities to postpone a decision on the termedial bill until the Winnipeg conference was over. Ottawa refused this and Manitoba also refused to regotiate. Manitoba School Conference Did

ART IN MODEST HOMES.

Mrs E. || | Hall's Paper Before the Woman's Union in Rochester, N Y -- Groek, Roman and Medieval Models in Sculpture

The Rochester, N. Y , Democrat in ecent issue contains the following notice of a paper given before the Women's Union, the work of Mrs E H. Hall who, it will be remembered, left Banger not long since for that city, to the regret of many friends and pupils

Chamber of Commorce, recently, Mrs. S. H. Linn read a most interesting paper, which was the work of Mrs. L. H. Hall, on "Great Art in Modest Homes; I to may be said that those is this gitly interested directly or multirectly in the history of nrt have seldom had a better comportantly to heave sold. had a better opportunity to hear such a delightful review of the subject and which embodied such a complete discussion of the relative value of the works of the masters of the Italian Renalssance. "Among the works of Raphael, which
mark the high noon of the Renaissance,
we have un embarrasament of richus in
all these paintings, the spiritual faces of

a high but entilly beauty, such as Raphuel no doubt first saw in the women of Florence, and which lirat mepired him to paint the virgin as a tender carthly mother. In the Sistine madonna, the crowning work of Raphael's hand, we see in Mary's face only the serene calm of divine motherhood, and the light of the world shines out from the eyes of the heavenly child. Next to the Sistine, artists generally rank in beauty the madonna of the cheir, or the "Sistine, artists generally rank in beauty the madonna of the cheir, or the "Siedla". One of the earliest of Raphael's works to be reproduced, it has northaps affered most at the hands of poor engravers and had copylists. It might almost seem that the daubers who paint carkentures of great pletures, whereby to victimize American tourists who have more money than culture, have borne this picture some special malier. The engraving made from it by Muiler and Raphael Mengs are exquisite works of art, but never they do not round in beauty, as real Mengs are exquisite works of ari, but even they do not equal in beauty, as real translations of the original, the isochro-

"Michelangelo's Sistinc freecoes," continued the apealer, "are easier studied in the copy than the original. This great artist, called the 'Prophet of the Renaissance,' as Raphael has been called its 'High Priest,' seems almost to have corned beauty in his tragle power and during. His sorrow and indignation at the wrongs of Haly, and his anger at the tyranny to which even his genius was subjected, may be read in the brooding eyes of the prophets, and make the figures of the Medict tombs almost terrible to behold. But the sweet face of Ruth which smiles from among the waiting ancestors of Christ in the Vatican chape', proyed that he could, when he willed, paint the benuitful woman. Mrs. Hall then gave a most interesting talk on the works of Leonardo da Vluci, Titian and others of the Italian masters, contemporary in art with Rapinel and Miohelungelis and she introduced just enough of the personal characteristics of each to reflect the better the distinguishing interpretation of their arts. The works of some of the modern painters were also mentioned. Then, in conclusion, she said

"We have glanced at a few of the gens of Italian art. There is no time to mention other antional schools. We know that to each of them the Ronalssance brought, in its time, new thoughts, new inspirations and new methods, of which the best results still exist. "Art history, like other history, is being made before our eyes. Many noble pictures are produced in our own country, or brought to us from across the sea. We cannot doubt that some of them will live to-speak to future containes as the works of the old masters speak, to us. But pictures, like events and teadencles, do not always unveil their worth to the present, and the award mustife with the future."

EASTER FLOWERS e Sales at the Different Flo

At Easter time there is always an extensive demand in this city for flowers and the forlsts make it a point to be well supplied. On Easter Sanday, which es on the 5th, many of the churches n this city and vicinity will be beautifully decorated and the Rangor florists have prepared for the occasion.

Adam Sekenger, on Newbory street

nas a fine display of Easter lilies and all

kinds of floral growths at his extensive

greenhouses to which be adds about very year. Many varieties, of roses milax, carnations, heaths, tulips spiarea, evelamens, narcissus, asparagu heliotrope, rhododendrons, cinerana stc., are also found there, all carefully raised and cared for. Laureis and palms are also a feature at the greenhouses which have a splendid supply. Mr. Sekenger has many orders for Easter-He has added to his big plant during the year a smilax and asparagus departmentada palm house, iwhich contain the growths. He will build us soon as the frost is out of the ground a carration house 100 feet long and a violet house 50 feet long. His greenhouses are all conneeted and are conducted in a strictly up-to-date fashion.

F. H. Moses at his extensive green bouses at Bucksport has a beautiful islay of Easter supplies for churches and Easter lilles in pots, illies out with lone Comrade Hovey, of Bangor, made intershown at N. H. Harlow's drug store, Mr Moses' Baugor place of business, and as furnished a substitute by introducing usual there is a good sale. Orders can be left with Mr. Harlow. sents his annual Easter greeting to his patrons and will furnish many flowers and plants for the Easter trade. Pot grown Easter Illies, cut lilies, roses, violets, illy of the valley, hyacinths. tulips, carnations, etc., together with boxes of cut flowers can be obtained of him in abundance, all being choice and beautiful. His exhibition and sale are at Warren's drug store.

Base Ball Notes.

In a short time work will begin at Maplewood Park upon the addition to the grand stand and that will be idllowed by preparation of the ball field. Careful ittention will be given to the field and it will be made as near like a floor as pos-sible. The left field which has been a little rough in the upper end, will receiv special attention.

The Bostons think they have Bergen. The Boaton Herald Sava of deat of the Y. M. C. A. for the next him: "Bergen confirmed the good opinions already formed of his work. If any body can fill the position this year better than he is going he must be a prodigy He ls a wonder. He catches with the utmost case imaginable and the way he grabs foul fly balls of the most difficult description would take any assemblage by storm. Wait till a Boston growd sees this young man play balt." The Augustas are trying to arrange to

It is said that Henry Long, signed by Manager Garrity as a pitcher, is a much better man than has been reported and may prove to be a great "find." A promising amateur, who will be given a total by Portland is Ahern, who

will come with Killeen from Troy, N. Y. Killeen writes in the most glowing terms of his fellow townsman. A meeting of the directors of the New England league will be held as soon as Messis. Murning and Morse return from

the South to decide the Coyle matter and other disputes that may come up. Breckerridge, the new first buseman will probably captain Brockton this senson. The veteran Rub Petric manded the shoemakers last season will probably go to Billy Barnie's Hartfords.

Portland Telegram: Fall River, New Bedford and Pawincket are kicking at the schedule, claiming that Brockton has all the best of it. Two of these clubs were on the schedule committee but were not interested enough to get together and see what they wanted, but will come out when the schedule is adopted and kick. Lewiston, the other member of the committee, received more than was expected, having one more Saturday a home than any other club and will also receive benefits from a deal with the Portland club to have the holidays the ame as last season. Lewiston is satis-

fied that there is some benefit in being on the schedale committee. Brockton looks very strong on paper and it will be strange if that club is not in the race. Nadeau, Willis and Wise will make a hard batting and rapid out field, while Breckinridge will no doubt be a fine first baseman. The club will be well supplied with first class pitch-

Says Sporting News: "There is no instance on record where Soden, the Boston magnate, over changed the figures on a contract after once proclaiming it the limit."

Friend, who was with the New Bedfords last year, is said to be pitching the sest ball of any of the Chicago pitchers in the practice games.

It looks like a freeze-out for Pfeifer a econd base in New York. He does not appear to be playing that position ne-cording to the high ideas of Arthur Irwin and Capt. Gleason; to the latter has taken charge of the bag. At the same time, Preffer is batting as strongly as any man in the team. Manager E. C. Norton is getting along

lucly with his Lawrence club. He has already signed five or six strong players, and is la search of three or four others. He will open the sesson on the 20th of April in Lawrence with a game with the Bangera, to be followed with games with Portland, Augusta and Lewiston.
